Project Name: "RAMADAN 2026 PROJECT"

Project Territory: Burkina Faso - Ouagadougou

Brief Description of the Project:

1. Ramadan 2026 Food packets 'distribution

During the Ramadan 2026 period, a food assistance project will be carried out for families living in poverty and facing serious difficulties in meeting their basic needs in Burkina Faso. Many families in the region struggle to access sufficient and regular food, and these needs increase further during Ramadan. Within the scope of this project, food packages will be distributed to support the basic nutritional needs of vulnerable households. The aid program is planned to cover 400 poor families.

The First food pack composition:

The food pack is composed of 12 kg of rice, 4 kg of Sugar, 400 g of tomato, 5 Lt of oil and 0,50 kg of date (fruit)

The Second food pack composition:

200 food packets have to be distributed and the composition of one food packet is as follow: 15 Kg of rice, 2kg of sugar, (0, 90 l X 2) of oil, 0,5kg of date, 400 gr of tomato.

2. Financial aid 'distribution

This part of the project consists of distributing some financial aid, to

the Burkinabe poor families. This financial support will covered 170 vulnerable families.

3. Motorcycle Tricycles as part of Income Generation project

As part of its fight against poverty and unemployment; the organization OSEH pleads for this project, which consists of buying 6 three-wheeled motorcycles to 6 vulnerable families in order to generate income able to meet their daily basic needs.

Indeed, these motorcycles are designed in such a way that they can carry goods and a lot of luggage instead of conventional vehicles.

These 6 unemployed families will receive the machines to work during the day and on the descent, the motorcycle will remain in the park and under the supervision of the OSEH organization.

The goal is to encourage these recipient families to work hard and be able to generate income to eventually reach the level of financial independence in their lives.

Technical specifications for Apsonic model:

- ↪ **Engine displacement:** Generally between 150 cm³ and 200 cm³.
- ↪ **Cooling:** Air-cooled or water-cooled for the more powerful models, allowing prolonged use without overheating.
- ↪ **Transmission:** Manual with integrated reverse gear, facilitating maneuvers.
- ↪ **Power:** Varies depending on the model, with maximum power reaching, for example, 8.5 km at 8000 rpm for the \$150\$ KZH model.
- ↪ **Durability:** Designed to be durable and withstand difficult terrains (sandy, mountainous roads) thanks to a reinforced frame.
- ↪ **Load capacity:** Variable, some models can carry up to 1.5 tons.
- ↪ **Bodywork:** Sturdy and large to transport goods or other loads.
- ↪ **Safety:** Drum brakes at the front and rear on some models.
- ↪ **Starting:** Electric start available on some model
